Criteria for Review

According to Section 35-482(h) of the UDC, in order for special exception to be granted, Board of Adjustment must find that the request meets each of the five following conditions:

A. The special exception will be in harmony with the spirit and purpose of the chapter.

The UDC states the Board of Adjustment can grant a special exception for a fence height modification up to 8'. The additional fence height is intended to provide privacy and security to the applicant's property. If granted, this request would be in harmony with the spirit and purpose of the ordinance. No portions of the fences will be in violation of the Clear Vision field.

B. The public welfare and convenience will be substantially served.

In this case, these criteria are represented by maximum fence heights to protect residential property owners while still promoting a sense of community. The fence height will be built along the side and rear property lines to provide privacy and security to the applicant's property. This is not contrary to the public interest.

C. The neighboring property will not be substantially injured by such proposed use.

No portion of the fence will be in violation of the Clear Vision field. No adjacent property owner, nor the traveling public, will be harmed by the proposed fence.

D. The special exception will not alter the essential character of the district and location in which the property for which the special exception is sought.

The 8' fence along the side and rear property lines would not significantly alter the overall appearance of the district and would provide added security and protection for the property owner.

E. The special exception will not weaken the general purpose of the district or the regulations herein established for the specific district.

The purpose of the fencing standards is to protect the health, safety, and general welfare of the public. The special exception request is to allow an 8' fence in order to add security and protection for the subject property. Therefore, the requested special exception will not weaken the general purpose of the district.

Alternative to Applicant's Request

The applicant would need to adhere to the permitted fence heights as described in Section 35-514.

Staff Recommendation

Staff recommends **APPROVAL** of variance in **BOA-19-10300042**, based on the following findings of fact:

1. The fence will provide additional privacy and security to the subject property.
