Overlay and Special District Information:

"EP"

The Facility Parking/Traffic Control District establishes regulations for parking and traffic around large facilities that attract large amounts of vehicle traffic. The overlay district is meant to regulate parking of

vehicles in areas not properly zoned for commercial parking; to reduce aesthetic and traffic problems for persons and businesses in these areas; to reduce visual blight, congestion, and wear and tear on city streets; and to increase access for emergency vehicles in these areas.

"MLOD-3"

All surrounding properties carry the "MLOD-3" Military Lighting Overlay District, due to their proximity to Martindale Army Airfield. The "MLOD-3" does not restrict permitted uses, but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Arena District / Eastside Community Plan:

4.1 Conserve existing neighborhoods
