"PUD"

Planned Unit Developments provide flexibility in development projects by allowing a combination of uses developed in accordance with an approved plan that protects adjacent properties; while preserving natural amenities and features of a site and providing for a minimum amount of open space. PUDs provide for a more efficient arrangement of land uses, buildings, circulation systems and infrastructure; encourage infill projects and development of sites made difficult for conventionally designed development because of shape, size, abutting development, poor accessibility or topography.

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of

construction plans by both the Development Services Department and the Federal Aviation Administration.

**Existing Character:** Freeway

**Proposed Changes:** None Known

**Public Transit:** VIA bus routes are within walking distance of the subject property.

**ISSUE:**

Single-family dwelling (detached) with a minimum lot size of 5,000 square feet and a minimum lot width of 45 feet, foster family home, public and private schools.

“PUD” zones provide flexibility in the planning and construction of development projects by allowing a combination of uses developed in accordance with an approved plan that protects adjacent properties.

**FISCAL IMPACT:**

None.

**PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:**

The property is part of the not part of a regional center and is not within a premium transit corridor.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Heritage South Sector and is currently designated as “Suburban Tier” in the future land use component of the plan. The requested “PUD R-5” base zoning district is consistent with the future land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The current “R-5” zoning is an appropriate use for the property and surrounding area. However, the proposed

“PUD R-5” would be more appropriate for type of more compact development requested by the developer and is tied to a PUD site plan with a 20-foot perimeter setback.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Heritage South Sector Plan:

HOU-1.3 Promote clustered housing including Conservation Subdivision Development and large lot development in rural areas

HOU-2.3 Promote Heritage South as an area of choice for prospective home buyers

**6. Size of Tract:**

The subject property is 106.7 acres, which could reasonably accommodate single-family development.

**7. Other Factors:**

The applicant is proposing 477 units in a Planned Unit Development.
