Request

A request for special exception, as described in Section 35-514, for an 8' tall privacy fence along the north and east property lines.

Executive Summary

The subject property is located at the intersection of Blanco Road and West Hollywood Avenue. The applicant is rebuilding a restaurant and has voluntarily agreed with the neighbors to install if allowed a double-sided and insulated 8' wooden fence along portions of the northern and eastern property lines to better screen noise and light from the restaurant operations, especially as it would relate to an outdoor patio seating and related activities.

Code Enforcement History

No Code Enforcement history exists on the property.

Permit History

The applicant is waiting for the special exception to be approved to obtain a fence permit.

Criteria for Review

According to Section 35-374.01 of the UDC, in order for a special exception to be granted, the applicant must demonstrate all of the following:

- A. *The special exception will be in harmony with the spirit and purpose of the chapter.*

The UDC states the Board of Adjustment can grant a special exception for a fence height modification up to 8'. The additional fence height is intended to screen noise and provide a more private the residents. If granted, this request would be in harmony with the spirit and purpose of the ordinance.

B. The public welfare and convenience will be substantially served.

In this case, these criteria are represented by maximum fence heights to protect residential property owners while still promoting a sense of community. The fence height will be built along the north and east property lines screening noise and providing privacy for the residents. This is not contrary to the public interest.

C. The neighboring property will not be substantially injured by such proposed use.

No adjacent property owner, nor the traveling public, will be harmed by the proposed fence.

D. The special exception will not alter the essential character of the district and location in which the property for which the special exception is sought.

The 8' fence along the north and east property lines would not significantly alter the overall appearance of the district and would screen noise and provide added privacy for outdoor patio uses.

E. The special exception will not weaken the general purpose of the district or the regulations herein established for the specific district.

The purpose of the fencing standards is to protect the health, safety, and general welfare of the public. The special exception request is to allow an 8' fence along the north and east property lines in order to screen noise and provide privacy for the residents. Therefore, the requested special exception will not weaken the general purpose of the district.

Alternative to Applicant's Request

The applicant would need to adhere to the permitted fence heights as described in Section 35-514.

Staff Recommendation

Staff recommends **APPROVAL** of the variance in **BOA-19-10300100**, based on the following findings of fact:

1. The applicant states they have voluntarily agreed with the neighbors to install a double-sided and insulated 8' wooden fence necessary to screen noise and provide privacy for the residents, and;
2. The fence does not visually hinder the adjacent property's driveway or other motorists view.
