**Transportation**

**Thoroughfare:** Hickory Well

**Existing Character:** Local

**Proposed Changes:** None Known

**Traffic Impact:** A Traffic Impact Analysis (TIA) is not required. The traffic generated by the proposed development does not exceed the threshold requirements.

**Parking Information:** The minimum parking requirement for a single family residential is 1 space per unit.

**ISSUE:**

None.

**ALTERNATIVES:**

**Current:** The present zoning district designation of "R-6" Residential Single-Family District provide areas for medium- to high-density, single-family residential uses where adequate public facilities and services exist with capacity to serve development. These districts are composed mainly of areas containing single-family dwellings and open area where similar residential development seems likely to occur. Residential single-family provides minimum lot size and density requirements in order to preserve neighborhood character.

**Proposed:** The proposed "R-6 HL" allows all of the above in addition to attaining a Historical Landmark.

**FISCAL IMPACT:**

None.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (9-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the North Sector Plan. A finding of consistency is not required for an application of a historical overlay.

**2. Adverse Impacts on Neighboring Lands:**

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The base zoning will remain "R-6."

**3. Suitability as Presently Zoned:**

The current "R-6" Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed rezoning maintains the base zoning district and establishes a historic overlay.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the North Sector Plan:

NR-2.4 Encourage (where feasible) the provision of pedestrian, bicycle and wildlife access to linear creekways and open space areas.

Goal NR-5 Historic trails, sites, structures, cemeteries, and ridges are preserved and promoted.

NR-5.3 Support voluntary efforts by landowners to preserve historic farms, ranches, and structures within the North Sector.

#### **6. Size of Tract:**

The subject property is 2.73 acres, reasonably accommodates the current open space.

#### **7. Other Factors:**

The request for landmark designation was initiated by the owner.

On October 2, 2019, the Historic and Design Review Commission (HDRC) approved a Finding of Historic Significance, identifying the property as historically significant based on criteria listed in Section 35-607 (b) of the Unified Development Code. The criteria identified as being applicable to the subject property are specified below.

HDRC concurred with the applicant that 16000 Hickory Well Dr met UDC criterion [35-607(b)5], [35-607(b)8], and [35-607(b)11] for a finding of historic significance in the process of seeking designation as a local historic landmark. In order to be eligible for landmark designation, a property must meet at least three of the criteria; 16000 Hickory Well Dr meets three.
