STAFF ANALYSIS & RECOMMENDATION:

Staff recommends Denial. Planning Commission (8-0) recommends Approval, as amended to “Medium Density Residential.

The applicant seeks a Plan Amendment in order to rezone to “IDZ-2” with uses permitted for fourteen (14) residential units. The proposed “Medium Density Residential” would be consistent with the desired “IDZ-2”. However, the San Antonio International Airport Vicinity Land Use Plan encourages the preservation of neighborhood integrity and the protection of the quality of life of residents including health, safety and welfare. The proposed “Medium Density Residential” introduces too much density midblock for a “Low Density Residential” area and as noted in the San Antonio International Airport Vicinity Land Use Plan is typically located along or near major arterials or collectors, not on local streets like Sandalwood.

ALTERNATIVES:

1. Recommend Approval of the proposed amendment to the San Antonio International Airport Vicinity Land Use Plan, as presented above.
2. Make an alternate recommendation.

3. Continue to a future date.
