PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is not within a Regional Center nor is it located within the Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval. Zoning Commission (10-0) recommends Approval of an Alternate Recommendation, excluding the property known as Bombay Bicycle Club.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the River Road Neighborhood Plan and is currently designated as “Low and Medium Density Residential”, “Neighborhood Commercial”, and “Office” in the future land use component of the plan. The requested “R-3” Residential Single-Family District, “R-4” Residential Single-family District, “NC” Neighborhood Commercial, and “O-1” Office, are consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested change would limit potential impacts of the existing “I-1” General Industrial District on the neighboring properties.

3. Suitability as Presently Zoned:

A majority of the area is suitable as presently zoned “MF-33” Multi-family, as “MF-33” allows single-family uses. The current zoning of “O-2” Office, “I-1” and “C-2” is too intense directly adjacent to residential.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles and objectives of the River Road Neighborhood Plan

6. Size of Tract:

The subject area is 4.047 acres, which could reasonably accommodate the requested uses.

7. Other Factors:

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

This is a city initiated large area rezoning as a result of a Council Resolution. An informational Community Meeting was held on January 27, 2020 for owners impacted by the large area rezoning. Staff presented the area being rezoned, the history of the area, the proposed zoning categories and the timeline to complete the rezoning process.
