RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Midtown Area Regional Center Plan and is currently designated as “Mixed Use” in the land use component of the plan. The requested “C-2” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. There is existing “C-2” Commercial zoning to the north, south and east of the property. It is also an appropriate buffer to the single-family to the west.

3. Suitability as Presently Zoned:

The existing “C-3NA” base zoning district is an intense zoning district within that area. The proposed rezoning decreases the intensity to a more appropriate district removes the no alcohol restrictions.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objectives of the Midtown Area Regional Center Plan which are to:

- Encourage growth and increased density at various scales in mixed-use centers.
- Create compact walkable places where San Antonio residents can live, work, and play.

6. Size of Tract:

The 0.28 acre site is of sufficient size to accommodate the proposed commercial development.

7. Other Factors:

The applicant is requesting to rezone for a restaurant with alcohol sales.
