The property is not within a Regional Center and is not within a premium transit corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Near Northwest Community Plan and is currently designated as “Urban Low Density Residential” in the land use component of the plan. The requested “R-4” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use maintains the current “R-4” base zoning district and is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “R-4” base zoning district is appropriate for the surrounding area. The proposed “R-4 CD”

maintains the base and the “CD” Conditional Use allows consideration of a Professional Office.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective of the Near Northwest Community Plan, which encourages the following:

Goal 2 - Economic Development

Ensure the Near NW Community’s business corridors are filled with a mix of uses including professional offices, residences and busy shops, providing neighbors an attractive place to walk for shopping, playing, working and relaxing both day and night.

Objective 2.2: Business Development

Create opportunities for new business development to ensure a diversity of attractive businesses in pedestrian friendly environments.

6. Size of Tract:

The 0.2726 acre site is of sufficient size to accommodate the proposed residential use and professional office.

7. Other Factors:

The applicant is requesting to rezone to a Professional Office.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

The following conditions shall apply to the operation of nonresidential uses permitted within any residential district, unless otherwise approved by the City Council:

- A. There shall be no exterior display or sign with the exception that a nameplate, not exceeding three (3) square feet in area, may be permitted when attached to the front of the main structure.
- B. No construction features shall be permitted which would place the structure out of character with the surrounding residential neighborhood.
- C. Business hours operation shall not be permitted before 7:00 a.m. or after 6:00 p.m.
