"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the West/Southwest Sector Plan and is currently designated as General Urban Tier in the land use component of the plan. The requested “C-2” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The current “C-2” Commercial District is an appropriate zoning for the property and surrounding area. The proposed “C-2 CD” maintains the base “C-2” district and the Conditional Use allows for consideration of a Welding Shop a use typically allowed by right in the “C-3 S” district. The Conditional Use allows the one use in addition to all uses allowed by right in “C-2”. Additionally, the Conditional Use holds the applicant to the submitted site plan and also allows for consideration of Conditions where appropriate such as: restricted temporary signage and/or hours of operation, fencing, landscape buffers and other similar restrictions.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the West/Southwest Sector Plan:

Economic Development Goals and Strategies

- Goal ED-1: The West/Southwest Sector is an economically sustainable community in which residents have a variety of employment opportunities
 - ED-1.1 Locate business offices near existing residential areas within the Sector
- Goal ED-3: The West/Southwest Sector community values existing and future businesses; businesses which in turn support the neighborhoods
 - ED-3.1 Ensure the development of new business locations and employment centers are
- Goal ED-4: Infill and redevelopment opportunities are well planned and incentivized within Loop 410
 - ED-4.1 Encourage high quality site and building design and best management practices for new and existing developments

6. Size of Tract:

The subject property is 0.1377, which could reasonably accommodate commercial uses and a Welding Shop.

7. Other Factors:

The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JB SA was notified of the proposed request. The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
