**Proposed:** The proposed “I-1” General Industrial District accommodates areas of heavy and concentrated fabrication, manufacturing and industrial uses which are suitable based upon adjacent land uses, access to transportation and the availability of public services and facilities. It is the intent of this district to provide an environment for industries that is unencumbered by nearby residential or commercial development. "I-1" must be located in areas where conflicts with other uses can be minimized to promote orderly transitions and buffers between uses. These districts are located for convenient access for existing and future arterial thoroughfares and railway lines. These districts are in many instances separated from residential areas by business or light industry areas or by natural barriers; where they are adjacent to residential areas some type of artificial separation may be required.

**1. Consistency:**

The subject property is located within the Heritage South Sector Plan and is currently designated as “Agribusiness RIMSE Tier”. The requested “I-1” is consistent with the future land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The current "BP" Business Park District is an appropriate zoning for the property and surrounding area. The proposed “I-1” General Industrial is also suitable to the property. This area is trending toward industrial uses; there are already several large properties with established industrial uses in the area. A majority of this property is also in the floodplain.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Heritage South Sector Plan:

Goal UTI-3.4- Promote alternative storm water management techniques that preserve the natural characteristics of 100- year flood plain

Goal ED-2.1- Support workforce development programs for targeted industries

Goal ED-6- Market Heritage South as a business friendly environment

**6. Size of Tract:**

The subject property is 5.73 acres, which could reasonably accommodate a construction contractor facility.

**7. Other Factors:**

None.
