The “S” would a Specific Use for Hospital with a Helistop, pursuant to a site plan.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The property is not within a regional center and nor is it within a premium transit corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Northwest Community Plan and is designated as “Mixed Use” in the future land use plan. The requested “C-2 S” is not consistent with the current land use designation. The Applicant has requested a plan amendment from “Mixed Use” to “Community Commercial”. Staff and Planning Commission recommend Approval.

2. Adverse Impacts on Neighboring Lands:

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested “C-2 S” maintains the base district and adds a Specific Use Authorization for consideration of a Hospital with a Helistop, in addition to the uses allowed in “C-2”.

3. Suitability as Presently Zoned:

The current “C-2” Commercial District is an appropriate zoning for the property situated next to the interstate highway and in a developing commercial center. The proposed “C-2 S” would also be appropriate.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Northwest Community Plan:

Land Use Goal-2: Encourage commercial development at nodes

Land Use Strategy 2: Commercial uses to be easily accessible

6. Size of Tract:

The subject property is 32.2170 acres, which could reasonably accommodate requested use as a hospital.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain specific locations.
