COUNCIL DISTRICTS IMPACTED:

Citywide

SUMMARY:

Briefing by the San Antonio Water System (SAWS) on the impact of utilities on housing affordability

BACKGROUND INFORMATION:

The Commission is currently working on a definition of affordability as it relates to Housing. This definition will inform how the City funds housing, and what is considered ‘affordable’ for the purposes of City support. To assist in the creation of the definition, the Commission is requesting several agencies whose services impact residents’ housing budget to present.

As part of their dialogue, the Commissioners would like to learn more about the impact utilities have on housing cost, for both residents and developments such as new multi-family rentals. They have requested SAWS provide input on the following topics, including but not limited to:

- Average monthly cost

- Use of cost-reducing programs
- Increase in late/missed payments during pandemic
- Percentage of late/missed payments over all
