"MLOD-2"

All surrounding properties carry the "MLOD-2" Military Lighting Overlay District, due to their proximity to Lackland. The "MLOD-2" does not restrict permitted uses, but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the West Sector Plan and is currently designated as “General Urban Tier” in the future land use component of the plan. The requested “R-6” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed “R-6” reduces potential adverse impacts by limiting the permitted uses currently allowed in the current “C-2” Commercial District.

3. Suitability as Presently Zoned:

The current “R-6” Residential District is not an appropriate zoning for the property and surrounding area. The requested “R-6” is more appropriate and would allow the tract to be developed as a home. The surrounding

parcels and the remainder of the block are all residential and were developed when the “C-2” Commercial District allowed the development of single-family homes.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the West Sector Plan:

ED-2.4 Consider rezoning corridors and nodes to permit the mix of uses

LU-6.5 Incentivize infill development in urban and suburban areas to lessen development pressure on agricultural areas

6. Size of Tract:

The subject property is 0.18 acres, which could reasonably accommodate residential uses.

7. Other Factors:

The subject property is located within the Lackland Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request. The Military has indicated that there are no objections to this request.

The applicant wants to build a single-family home on the site.
