RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the West/Southwest Sector Plan and is currently designated as "General Urban Tier" in the future land use component of the plan. The requested "I-1" base zoning district is not consistent with the future land use designation. The applicant requested a Plan Amendment from "General Urban Tier" to "Specialized Center." Staff recommends Approval. The Planning Commission recommendation is pending the December 16, 2020 hearing.

2. Adverse Impacts on Neighboring Lands:

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested Specific Use Authorization maintains the base zoning district of “I-1” and would allow Chemical Manufacturing/Processing. The Specific Use Authorization also limits the property and buildings to the submitted site plan.

3. Suitability as Presently Zoned:

The current “I-1” General Industrial District is appropriate zoning for the property and surrounding area. The proposed “I-1 S” is also an appropriate zoning for the property as it maintains the “I-1” base zoning and under site specific circumstances may allow the Chemical Processing uses as well.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the West/Southwest Sector Plan:

- Goal ED-3 The West/Southwest Sector community values existing and future businesses; businesses which in turn support the neighborhoods
 - Strategies:
 - ED-3.1 Ensure the development of new business locations and employment centers are compatible with the West/Southwest Sector Land Use Plan
 - ED-3.2 Explore creating new tax increment reinvestment zones (TIRZ) adjacent to existing employment centers within Loop 410 in the Sector
 - ED-3.3 Foster partnerships with businesses to promote the beautification and clean-up of existing neighborhoods, utilizing programs offered by, but not limited to, Keep San Antonio Beautiful and City of San Antonio Solid Waste Department
 - ED-3.4 Continue to utilize/increase code enforcement and other programs to address crime and graffiti
- Goal ED-4 Infill and redevelopment opportunities are well planned and incentivized within Loop 410
 - Strategies:
 - ED-4.1 Encourage high quality site and building design and best management practices for new and existing developments
 - ED-4.2 Utilize TIRZ and the Inner City Reinvestment/Infill Policy (ICRIP) to incentivize improvements to existing sites
 - ED-4.3 Connect employment centers to bicycle and pedestrian paths
 - ED-4.4 Encourage upgrades to existing infrastructure within Loop 410
 - ED-4.5 Promote the burying of utility lines where feasible

6. Size of Tract:

The subject property is 0.25 acres, which could reasonably accommodate the proposed use of Chemical Manufacturing/Processing.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but with may, under the right set of circumstances and conditions be acceptable in certain

specific locations.

The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request. The Military has indicated that there are no objections to this request.
