RECOMMENDATION:

Staff Analysis & Recommendation: Staff recommends Approval.

The applicant seeks a Plan Amendment to “Specialized Center” to rezone the property to "I-1 S" General Industrial District with Specific Use Authorization for Chemical Manufacturing/Processing. The property is an established industrial / office warehouse subdivision. The request proposes to utilize one of the suites for the proposed use. The “Specialized Center” land use is more appropriate based on the current pattern of development.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the West/Southwest Sector Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the West/Southwest Sector Plan and will not

- solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the West/Southwest Sector Plan.
- The amendment will not adversely impact a portion of, or the entire Planning Area by;
- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Lackland Base.
- Significantly alter recreational amenities such as open space, parks, and trails.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the West/ Southwest Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
