### **RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

#### **1. Consistency:**

The subject property is located within the Downtown Regional Center Plan and is currently designated as "Medium Density Residential" in the future land use component of the plan. The requested R-4" Residential base zoning district is consistent with the future land use designation.

#### **2. Adverse Impacts on Neighboring Lands:**

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed rezoning allows continuation of the existing use but in accordance with a site plan.

### **3. Suitability as Presently Zoned:**

The current “R-4” is an appropriate zoning for the property and the surrounding area. The proposed “R-4 S” is also an appropriate zoning for the property and existing use, and is consistent with the surrounding area mostly comprised of narrow lots and single-story homes.

### **4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

### **5. Public Policy:**

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Downtown Regional Center Plan:

Goal 6: Broaden the Diversity of Housing Options throughout the Downtown Core and its Neighborhoods

- Provide a variety of housing types, both owner- and renter-occupied, that are affordable for people at all stages of life and for a range of income levels
- Preserve existing affordable housing
- Emphasize the development of “Missing Middle” housing for both renters and owners

### **6. Size of Tract:**

The subject property is 0.20 acres, which could reasonably accommodate residential uses, specifically a Manufactured Home.

### **7. Other Factors:**

The subject property is located within the Lackland Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JB SA was notified of the proposed request. The Military has indicated that there are no objections to the request.

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain specific locations.
