Neighborhood uses should be accessible by pedestrians. Community commercial should be located at the intersections of arterials and/or collectors. STAFF ANALYSIS AND RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

The applicant seeks a Plan Amendment to “Suburban Tier.” “Suburban Tier” land use currently exists on the western portion of the property, but the plan amendment would give the entire site a single consistent future land use category.

This is a three (3) phase project for single-family subdivision development and the applicant seeks consistent land use to “Suburban Tier”. “Suburban Tier” land use provides zoning district alternatives such as “R-4,” which is an appropriate density for the area and will provide housing options with good vehicular access, while not adding any additional permitted uses.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Heritage South Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
