RECOMMENDATION:

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the North Sector Plan and is currently designated as “Suburban Tier” in the land use component of the plan. The requested “PUD R-6” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. There is already “PUD R-6” Planned Unit Development Residential Single-Family established in the area along with “R-6” Residential Single-Family.

3. Suitability as Presently Zoned:

The existing “C-2NA” base zoning district is appropriate for the surrounding area. The proposed “PUD R-6” is also appropriate for the area and provides additional housing.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

LU-1.3 Promote a variety of housing types, including apartments, lofts, condominiums, townhouses and single family attached and detached housing between Loop 1604 and Loop 410.

LU-6.5 Encourage development that is visually and functionally compatible with its surrounding neighborhoods by maintaining a massing and density of development that is compatible with adjacent developed neighborhoods.

6. Size of Tract:

The 3.84 acre site is of sufficient size to accommodate the proposed “PUD R-6” development.

7. Other Factors:

The subject property is located within the Edwards Recharge Zone District. SAWS recommends 65% impervious cover.
