**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Midtown Regional Center Area Plan and is currently designated as “Urban Low Density Residential” in the future land use component of the plan. The requested “R-6” base zoning district is consistent with the future land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The applicant is requesting a conditional use for two (2) dwelling units that are existing for the purpose of adding a second meter.

**3. Suitability as Presently Zoned:**

The current “R-6” is an appropriate zoning district. The proposed “R-6 CD” maintains the base district and the “CD” allows consideration of two (2) units. Both units already exist on the property. The proposed zoning brings them into zoning compliance for use with a 2<sup>nd</sup> electrical meter.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with any public policy. The proposed zoning is consistent with Goal 5: Broaden Housing Choices: Conserve existing affordable housing and the existing diverse mix of housing types and expand affordable housing options.

**6. Size of Tract:**

The subject property is 0.1343 acres, which could reasonably accommodate the requested residential use.

**7. Other Factors:**

The subject property is located within the Fort Sam Houston Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request. The Military has indicated that there are no objections to this request.

The applicant proposes to add a second meter to an existing unit.
