None.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval, pending Plan Amendment.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the Guadalupe Westside Community Plan and is designated Low Density Residential. The requested "C-1" base zoning district is not consistent with the adopted land use designation. The applicant has requested a Plan Amendment to Neighborhood Commercial. Staff and Planning Commission recommend Approval.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on surrounding properties in relation to this zoning request. The requested zoning will allow for a convenience store and laundromat.

**3. Suitability as Presently Zoned:**

The existing "I-2" zoning district is not appropriate for the subject property and surrounding areas, as the surrounding properties primarily consist of residential uses. Furthermore, the subject property is situated on the neighborhood perimeter and is adjacent to a railroad. The proposed zoning would serve as a buffer between the railroad and residences.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective. The requested zoning and project uphold the goals of the Guadalupe Westside Community Plan by encouraging the development of vacant and substandard parcels as well as by promoting compatibility between business and residents.

**6. Size of Tract:**

The subject property is 0.4001 acres in size, which will accommodate commercial/retail uses.

**7. Other Factors:**

The applicant has been informed of the C-1 requirements including a minimum 15 foot landscape buffer between the primary use and the adjoining residential properties in the rear and the public right-of-way in the front. Furthermore, under the “C-1” zoning district, parking must be located behind the front facade of the primary structure.
