Property Details

Property History: The subject property was annexed within City limits on December 31, 1993, (Ordinance # 79038). According to available records, the subject property was zoned Temporary “R-1” Single-Family Residence. The subject property was then rezoned to “R-A” CC Residence Agriculture District with special City Council approval for a Horse Stable/Equestrian Center, (Ordinance # 80810). Upon the adoption of the 2001 Unified Development Code, the subject property was converted to “NP-10 S” Neighborhood Preservation District with Specific Use Authorization for a Horse Stable/Equestrian Center.

None.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the West/Southwest Sector Plan and is designated as Regional Center. The requested "MF-33" base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on surrounding properties in relation to this zoning request. The requested zoning will allow for a multi-family development, with up to 81 units, that is compatible with the surrounding neighborhood.

3. Suitability as Presently Zoned:

The existing "NP-10" zoning district is not appropriate for the subject property. "NP-10" zoning district carries the same uses as "R-6" Single-Family Residential District and is typically developed with single-family detached dwelling units. The subject property is located along a highway with heavy traffic volumes making single-family homes less suitable for this location. Furthermore, the surrounding properties are primarily commercial along Loop 1604 and the requested Multi-Family zoning, along with those commercial uses, would serve as buffer between Loop 1604 and the nearby single-family homes.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective. The zoning request fulfills the goals of the West/Southwest Sector Plan by providing a diverse and affordable housing stock.

6. Size of Tract:

The subject property is 2.93 acres in size, which accommodates the proposed development for 81 multi-family dwelling units with adequate space for parking.

7. Other Factors:

None.
