8.1.3. Focus on South WW White Road and Rigsby Avenue as commercial corridors and encourage the establishment of more service industry businesses

### **Comprehensive Land Use Categories**

**Low Density Residential:** Low Density Residential Development includes Single-Family Residential Development on individual lots. This form of development should be located away from major arterials, and can include certain non-residential uses such as schools, places of worship, and parks that are centrally located for convenient neighborhood access.

**Related Zoning Districts:** RP, RE, FR, RD, R-20, NP-15, NP-10, NP-8, R-6, R-5, R-4, & PUD

### **Comprehensive Land Use Categories**

**Community Commercial:** Community Commercial provides for offices, professional services, and retail uses of moderate intensity and impact. Examples of uses include a grocery store, a medical office, music store, shoe store, nursery, or mailing services store.

Community Commercial should be located along arterials, preferably at intersections with other arterials or collectors. Community Commercial can serve as an appropriate buffer between low, medium, and high density residential uses, or between an arterial and low density residential.

#### **LAND USE ANALYSIS:**

The applicant proposes using the southern lot as a non-commercial parking lot for the existing restaurant on the northern lot. The parking lot will provide a buffer from the commercial uses to the north and the residential uses to the south. The proposed plan amendment and related zoning change request follow the current pattern for development of the area and support the goals of the Eastern Triangle Community Plan to focus on South WW White Road and Rigsby Avenue as commercial corridors and encourage the establishment of more service industry businesses.

#### **ALTERNATIVES:**

1. Recommend denial of the proposed amendment to the Eastern Triangle Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

#### **FISCAL IMPACT:**

None.

#### **RECOMMENDATION:**

Staff recommends Approval. The proposed amendment to Community Commercial land use classification will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible with the existing surrounding pattern of development.
