RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the North Sector Plan, and is currently designated as Mixed Use in the future land use component of the plan. The requested "C-2" Commercial base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current "C-3R" and "C-2" base zoning district is appropriate for the subject property's location.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with land use goals and strategies of the of the North Sector Plan that encourages development that is visually and functionally compatible with its surrounding neighborhoods by maintaining a massing and density of development that is compatible with adjacent developed neighborhoods.

6. Size of Tract:

The subject property totals 2.215 acres in size, which should reasonably accommodate the uses permitted in "C-2" Commercial District.

7. Other Factors:

The conditional use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

Should the Conditional Use be approved, staff recommends the following conditions:

1. An six feet solid wall is required around the property that abuts residential zoning and/or land uses.
2. All on-site lighting shall be directed onto the site and point away from any surrounding residential uses.
3. Outdoor amplification speakers are not allowed during the hours of 7 p.m. and 7 a.m.
4. All repairs will remain inside the facility.
