RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the North Sector Plan, and is currently designated as Regional Center in the future land use component of the plan. The requested "C-2" Commercial base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current "R-5" base zoning district is appropriate for the subject property's location. The requested zoning district of "C-2" is also appropriate for the subject property's location.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with land use goals and strategies of the North Sector Plan that focuses on Promote development activity inside Loop 1604 that is adjacent and proximate to existing medical and research employers in the western portion of North Sector for expansion as per the Sector Land Use Plan.

6. Size of Tract:

The subject property totals 3.00 acres in size, which should reasonably accommodate the uses permitted in "C-2" Commercial District.

7. Other Factors:

The applicant proposes a rooming house on the subject property. The adjacent property is zoned "C-3 NA" General Commercial Non-Alcoholic Sales will act as a buffer to the surrounding "R-5" Residential Single-Family properties. The request to rezone the subject property will make the land uses more compatible with one another.
