**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Lone Star Community Plan and is currently designated as Low Density Mixed Use in the future land use component of the plan. The proposed “IDZ” base zoning district is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on neighboring land in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

Due to the transitional changes of the land uses within the area, the existing “C-3NA” and “I-2” base zoning districts are not appropriate for the subject property.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective. Low Density Mixed Use includes a mix of low intensity residential and commercial uses integrated into one structure or found in the same lot or block.

**6. Size of Tract:**

The subject property is 0..774 of an acre in size, which is sufficient for the proposed development.

**7. Other Factors:**

None.
