RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the San Antonio Airport Vicinity Land Use Plan, and is currently designated as Business Park in the future land use component of the plan. The requested "I-1" General Industrial base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to change the land use from Business Park to Light Industrial. Staff has recommended approval. Planning Commission continued the case until June 22, 2016.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current "C-3" base zoning district is appropriate for the subject property's location. The requested zoning district of "I-1" is also appropriate for the subject property's location

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with land use goals and strategies of the San Antonio Airport Vicinity Land Use Plan that support commercial redevelopment through comprehensive rezoning and incentive zoning stimulate and support increased activity of existing businesses.

6. Size of Tract:

The subject property totals 5.609 acres in size, which should reasonably accommodate the uses permitted in "I-1" General Industrial District.

7. Other Factors:

The applicant proposes storage of cable equipment on the subject property. The surrounding properties are zoned "I-1" General Industrial District. The request to rezone the subject property will make the land uses more compatible with one another.
