RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the West/Southwest Sector Plan and is currently designated as General Urban Tier in the future land use component of the plan. The requested “C-2” base zoning district is consistent with the current land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on surrounding properties.

3. Suitability as Presently Zoned:

The requested “C-2 CD” Commercial District with a Conditional Use for Auto Paint and Body Shop is appropriate for the subject property. The request for “C-2 CD” will not have any negative effects on future development, but rather provide additional services to any existing and potential development. The site location is on a Primary Arterial Type “A” 120 feet thoroughfare and it is surrounded by similar land uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property is 0.7370 acres in size, which accommodates the proposed development with adequate space for parking.

7. Other Factors:

The conditional use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

Should the Conditional Use be approved, staff recommends the following conditions:

1. A six feet solid masonry wall is required around the property that abuts residential zoned property and /or land uses
2. All on-site lighting shall be directed onto the site and point away from any surrounding residential uses.
3. All repairs will remain inside the facility.
