Comprehensive Land Use Categories

High Density Residential: High Density Residential Development includes multi-family developments with more than four units, such as apartment complexes, but can also include low density and medium density residential uses. This classification can include certain non-residential uses such as schools, places of worship, and parks that are centrally located for convenient neighborhood access. This form of development should be located along collectors, arterials, or highways, and can serve as a buffer between low or medium density residential land uses and commercial uses. High Density Residential uses should be appropriately buffered from adjacent residential uses through landscaping, screening and lighting controls. Additionally, it is encouraged that any new high density residential uses provide a majority of market rate valued housing.

Example Zoning Districts:

R-5, R-4, R-3, PUD, RM-6, RM-5, RM-4, MF-18, MF-25, MF-33 & MF-40

Comprehensive Land Use Categories

Parks/Open Space: Parks / Open Space include large, or linear, unimproved land where conservation is promoted and development is not encouraged due to presence of topographic constraints or institutional uses on the site. Parks /Open Space include flood plains, utility corridors; public and private land uses that encourage outdoor passive or active recreation. Examples include City pocket, regional, or linear parks, as well as private parks associated with subdivisions and neighborhood associations.

Example Zoning Districts:

Varies

Comprehensive Land Use Categories

Regional Commercial: Regional Commercial provides for offices, professional services, and retail uses that draw on the customer base of a region. Examples of uses include "big box" retail and retail "power centers", shopping malls, movie theaters, and medical or office complexes that are mid to high rise. Regional Commercial uses are typically located at nodes formed by highways and major arterials, or two major arterials, and are usually 20 acres or greater in size. Regional Commercial uses can serve as an appropriate buffer between an arterial or highway, and lower intensity commercial or medium to high density residential uses.

Example Zoning Districts:

NC, O-1, O-1.5, O-2, C-1, C-2, C-2P & C-3

LAND USE ANALYSIS:

The applicant requests this plan amendment and associated zoning change to allow for expansion of the existing non-profit advocacy center for children to allow for a parking lot. The proposed amendment is an appropriate fit that supports the accommodation of growth within this area. The proposed amendment to Regional Center will provide consistency with the surrounding areas and allow the applicant to seek the appropriate commercial zoning. The proposed amendment to Regional Center land use will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible with the already-existing surrounding pattern of development.

ALTERNATIVES:

1. Recommend denial of the proposed amendment to the Eastern Triangle Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

FISCAL IMPACT:

None

RECOMMENDATION:

Staff recommends approval. The proposed amendment to Regional Commercial land use will not significantly alter the land use pattern or character of the immediate area.

PLANNING COMMISSION RECOMMENDATION: Approval (8-0)
