RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within an area that currently does not have a plan.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. Staff recognizes the “C-2” zoning on adjacent single-family residences next to the subject property. It is ideal that the subject property and eventually the neighboring land be downzoned to residential zoning.

3. Suitability as Presently Zoned:

The current “C-2” base zoning district is inappropriate, as the current urban fabric of the neighborhood primarily consists of single-family residences.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective, as there is no designated plan for this area.

6. Size of Tract:

The subject property totals 0.1101 acres in size, which will reasonably accommodate the uses permitted in “R-4” Residential Single-Family District.

7. Other Factors:

None.
