**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (10-0) recommend Approval, pending Plan Amendment.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the North Sector Plan, and is currently designated as Regional Center in the future land use component of the plan. The requested "I-1" base zoning district is not consistent with the future land use designation. The applicant has requested a plan amendment to Specialized Center. Staff and Planning Commission recommend approval.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The properties that are located around the subject property have similar uses.

**3. Suitability as Presently Zoned:**

The current "R-5" and "R-6" base zoning districts are not appropriate for the subject property's location. The requested zoning district of "I-1" is appropriate due to the surrounding properties having similar uses.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective because it has consistent uses surrounding the property.

**6. Size of Tract:**

The subject property measures 4.99 acres which accommodates the existing development with adequate space for parking.

**7. Other Factors:**

The property is within the 100-year flood plain. Mitigation may be required during permitting.
