Property Details

Property History: The subject property was part of the original 36 square miles of the City and was previously zoned “K” Apartment District. A 1989 case, Ordinance #70785 zoned the subject property as “R-7” Small Lot Residence. Upon adoption of the 2001 Unified Development Code, the previous base zoning district converted to the current “R-4” Residential Single-Family District.

Topography: The property does not include any abnormal physical features such as slope or inclusion in a floodplain.

Public Transit: The nearest VIA bus route is #22 within walking distance of the subject property.

Traffic Impact: A Traffic Impact Analysis (TIA) is not required. Infill Development (IDZ) is exempt from TIA requirements.

Parking Information: The “IDZ” Infill Development Zone District waives off-street vehicle parking requirements.

ISSUE:

None.

ALTERNATIVES:

A denial of the request will result in the subject property retaining the current zoning district.

FISCAL IMPACT:

None.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Dignowity Hill Neighborhood Plan, and is currently designated as Low Density Residential in the future land use component of the plan. The requested “IDZ” Infill Development Zone base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The request to allow for four single-family dwellings is too intense of a density for this lot size.

3. Suitability as Presently Zoned:

The current “R-4” base zoning district is appropriate for the subject property’s location. The request to allow for “IDZ” to allow for four single-family houses is not appropriate, which does not follow the current pattern of development for that area.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does appear to conflict with land use goals and strategies of the of the Dignowity Hill Neighborhood Plan to preserve the unique historic character of Dignowity Hill

6. Size of Tract:

The subject property totals 0.1570 acres in size, which reasonably accommodate the uses permitted in “IDZ” Infill Development Zone, but not for densities as high as those that the applicant is requesting.

7. Other Factors:

The applicant proposes four single family houses on the subject property. The surrounding lots all include one single family house on small lots. The request to rezone the subject property will not make the land uses more compatible with one another and does not reflect the character of the neighborhood.

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings of structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks.
