RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the South Central San Antonio Community Plan, and is currently designated as Low Density Residential in the future land use component of the plan. The requested "C-2" base zoning district is not consistent with the current land use designation. The applicant has requested a plan amendment to Mixed Use. Staff and Planning Commission recommend approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested down-zoning to "C-2" is consistent with the neighboring land uses.

3. Suitability as Presently Zoned:

The current "I-1" base zoning district is not appropriate for the surrounding area. The subject property is bounded by a combination of Commercial uses and Single-Family Residential homes.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with the land use goals and strategies of the South Central San Antonio Community Plan. The close proximity to residential neighborhoods makes the current "I-1" incompatible with the area. The application for "C-2" is consistent with the objectives of comprehensive plan.

6. Size of Tract:

The subject property measures 0.2652 of an acre which should reasonably accommodate the uses permitted in "C-2" Commercial District.

7. Other Factors:

None.
