**ALTERNATIVES:**

1. Recommend denial of the proposed amendment to the North Sector, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

**FISCAL IMPACT:**

None

**STAFF ANALYSIS AND RECOMMENDATION:** Staff recommends approval.

**Sector Plan Criteria for review:**

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.

This area is north of a development single family subdivision (Cresta Bella) with an average of 10,000 square foot lots with a zoning of “R-6”. The current zoning and development pattern is not consistent with the current land use designation of Rural Estate Tier. The appropriate land use designation that is consistent with the already developed area is Suburban Tier. While the North Sector Plan provides other areas with the requested land use classification, the subject property’s location along Heuermann Road and its close proximity to Interstate Highway 10, makes the area appropriate for more intense residential development. The density of the development to the south and the General Urban Tier to the east allows for the proposed Suburban Tier to act as

a buffer. The applicant requests this plan amendment and associated zoning change in order to construct more affordable housing in the area near La Cantera and The Rim shopping centers.

**The amendment will not adversely impact a portion of, or the entire Planning Area by;**

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Significantly alter recreational amenities such as open space, parks, and trails.

The proposed request does not alter existing land use patterns as the area has other single family residential uses in close proximity. The proposed amendment to Suburban Tier land use will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible as a buffer with the current development of Cresta Bella to the south. The proposed amendment is appropriate for the area as it acts as a buffer between low and higher density residential uses to the north and south.
