Property Details

Property History: The subject property was part of the original 36 square miles of the City and was previously zoned "B" Duplex District. Upon adoption of the 2001 Unified Development Code, the previous base zoning district converted to the current "R-4" Residential Single-Family District. A 2004 case, Ordinance #99243 zoned the subject property as "C-2" Commercial District.

Topography: The property does not include any abnormal physical features such as slope or inclusion in a floodplain.

Adjacent Base Zoning and Land Uses

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Heritage South Sector Plan, and is currently designated as General Urban Tier in the future land use component of the plan. The requested “C-2” Commercial base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested zoning change for a construction contractor facility office with a caretaker facility, which is a residential use, blends in with the surrounding residential zoned properties of the area. Abutting properties are large lots, and several are vacant. Staff finds that the proposed conditions will help to buffer the proposed use, which is primarily located indoors.

3. Suitability as Presently Zoned:

The current “C-2” base zoning district is appropriate for the subject property’s location. The surrounding properties to the east, south, and west are residential, but largely vacant.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The surrounding land uses are all residential vacant properties. The requested zoning change to allow for a construction contractor facility to store equipment and a caretaker facility for residential uses will fit in with the surrounding land uses.

5. Public Policy:

The rezoning request does not appear to conflict with land use goals and strategies of the Heritage South Sector Plan to promote land uses that are compatible with neighboring properties that preserve neighborhood character and economic viability.

6. Size of Tract:

The subject property totals 0.2961 acres in size, which should reasonably accommodate the uses permitted in "C-2 CD AHOD" Commercial Airport Hazard Overlay District with Conditional Use for a Construction Contractor Facility.

7. Other Factors:

The purpose of the Conditional Use is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may under the right set of circumstances and conditions be acceptable in certain specific locations.

Should the Conditional Use be approved, staff recommends the following conditions:

1. A six foot solid screen fence is required around the property that abuts residential property and /or land uses.
2. All on-site lighting shall be directed onto the site and point away from any surrounding residential uses.
3. Outdoor amplification speakers are not allowed during the hours of 7 p.m. and 7 a.m.
4. Business hours of operation for the general public shall not be permitted before 7:00 a.m. or after 6:00 p.m.
5. Business days of operation for the general public shall be Monday thru Friday.
