Property Details

Property History: The subject property was annexed into the City of San Antonio on September 25, 1952 (Ordinance #18115) and zoned Temporary "A" Residential District. The current "R-5" base zoning district resulted from the zoning district conversion that accompanied the adoption of the 2001 Unified Development Code (Ordinance 93881, dated May 3, 2001).

Topography: The property does not include any abnormal physical features such as slope or inclusion in a flood plain.

Adjacent Base Zoning and Land Uses

Current Base Zoning: C-1, MF-33

Current Land Uses: Apartment complex, Church

Direction: West

Current Base Zoning: C-3

Current Land Uses: Veterinary Hospital, Ballet Arts School, Spiritual Center

Overlay and Special District Information: All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

Transportation

Thoroughfare: Anchor Drive

Existing Character: Local Street

Proposed Changes: None known

Thoroughfare: Belair Drive

Existing Character: Local Street

Proposed Changes: None known

Public Transit: Bus Route 602 (Stop #28696) is within a minute-walk from the subject property on Belair Drive.

Traffic Impact: A Traffic Impact Analysis (TIA) Report is not required. The traffic generated by the proposed development does not exceed the threshold requirements.

Parking Information: A Dwelling for Two (2) Families requires a minimum of one (1) parking space per unit and a maximum of two (2) parking spaces per unit.

ISSUE:

None.

ALTERNATIVES:

Denial of the requested zoning change would result in the subject property retaining the present zoning district designation.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is not located within a Regional Center, nor is it within a half-mile of a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the San Antonio International Airport Vicinity Plan and is currently designated as “Medium Density Residential” and “Community Commercial” in the land use component of the plan. The requested “RM-5” base zoning district is not consistent with the “Community Commercial” land use designation. The applicant has requested a plan amendment to “Medium Density Residential” for the entire property. Staff and Planning Commission recommend approval.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. There is a strong presence of multi-family development, such as duplexes and apartment complexes, to the east and south of the property.

3. Suitability as Presently Zoned:

The existing “R-5” is appropriate for the surrounding area. The residential uses to the east and south of the property makes the “R-5” Residential Single-Family District appropriate, however, the “RM-5” Residential Mixed District will better-suit the specific area.

4. Health, Safety and Welfare:

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare. These three lots are currently vacant, and the addition of residential to an already established residential neighborhood does not seem to indicate adverse effects for the surrounding area.

5. Public Policy:

The request does not appear to conflict with any public policy objective. It is also in line with an objective in the plan that aims to protect the integrity of existing residential neighborhoods and prevention of excessive noise pollution.

6. Size of Tract:

The 0.57-acre site is of sufficient size to accommodate the proposed development of eight (8) units.

7. Other Factors:

None.
