The subject property is not located within a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Heritage South Sector Plan and is currently designated as “Agribusiness/RIMSE Tier” in the land use component of the plan. The requested “I-1” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The request is to bring the current operation into compliance with the zoning. It is located in an area that is partially vacant and has other industrial uses.

3. Suitability as Presently Zoned:

The existing “BP” base zoning district is not appropriate for the surrounding area. The subject property is amongst other industrial uses and an office or institutional use would not be appropriate for the location.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public’s health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective because it is consistent with the adopted land use plan.

6. Size of Tract:

The subject property is 1.50 acres which should reasonably accommodate the uses permitted in the “I-1” Industrial District.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may under the right set of circumstances and conditions be acceptable in certain specific locations.
