RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the San Antonio International Airport Vicinity Plan and is currently designated as “Business Park.” The requested “C-3” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to his zoning change request. The request is to allow for the use of gunsmith operations in addition to the wholesale of sporting goods, which is the current use on the site.

3. Suitability as Presently Zoned:

The existing “I-1” base zoning district is appropriate for the surrounding area. The subject property is currently located in a business park and all of the other businesses are zoned “I-1.”

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public’s health, safety, or welfare. The business is already located on the subject property and it is in its own suite within the business park. The request would provide a “down-zoning” to commercial from the existing industrial zoning. The down-zoning will permit the use of a Gunsmith by right, while the Conditional Use addresses the “wholesale” facet of the Sporting Goods retailer.

5. Public Policy:

The request does not appear to conflict with any public policy objective because it is consistent with the adopted land use plan.

6. Size of Tract:

The subject property is 0.3077 acres which should reasonably accommodate the uses permitted in the “C-3” General Commercial District. The business already exists on the property, so it will be of sufficient space for

the use.

7. Other Factors:

The Conditional Use zoning procedure is designed to provide for a land use within an area that is not permitted by the established zoning district but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions. The granting of the zoning with Conditional Use shall only be for the zoning case named in the ordinance approving the Zoning District with the specified Conditional Use provisions.
