**Overlay and Special District Information:**

All surrounding properties carry the "MLOD-1" Military Lighting Overlay District, due to their proximity to Camp Bullis. The "MLOD-1" does not restrict permitted uses, but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

All surrounding properties carry the "ERZD" Edwards Recharge Zone District. The "ERZD" does restrict permitted uses, due to the environmentally sensitive nature of the recharge zone. Per Chapter 34 of the City of San Antonio Code of Ordinances, the San Antonio Water System (SAWS) and City of San Antonio departments share regulatory jurisdiction over development within the "ERZD."

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the North Sector Plan and is currently designated as “Mixed Use Center”. The request for “C-2” base zoning district is consistent with the adopted future land use plan.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change because the request is consistent with commercial uses of the surrounding properties along the corridor.

**3. Suitability as Presently Zoned:**

The current “C-2” base zoning district is appropriate for the subject property’s location. The applicant’s request for a Conditional Use and a Specific Use Authorization for a Veterinary Hospital to include Outdoor Runs, Paddocks, and Pens is also appropriate for the subject property’s location as it will offer an extension to commercial services already provided and the request will not change the base zoning.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. Proper measures have been taken with San Antonio Water System as it relates to the Edwards Aquifer Recharge Zone.

**5. Public Policy:**

The rezoning request does not appear to conflict with land use goals and strategies of the North Sector Plan

Economic Development Goal to support, stimulate, and foster increased activity of existing businesses within the North Sector.

**6. Size of Tract:**

The subject property totals 0.5459 acres in size, which should reasonably accommodate the uses permitted in “C-2” General Commercial District.

**7. Other Factors:**

Based on the information provided by the applicant, SAWS staff recommends approval of the zoning request, provided that the impervious cover shall not exceed 91% on the site. Reference SAWS report dated July 12, 2017.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but with may, under the right set of circumstances and conditions be acceptable in certain specific locations.

Pursuant to 35.514 (c) (2), the applicant is requesting an 8 foot fence with the proposed rezoning.
