BACKGROUND INFORMATION:

City Council approved \$99 million in the FY 2018 Budget to complete both in-house and contract street maintenance projects. This was an increase of funding in the amount of \$35 million above the \$64 million provided the previous two fiscal years for street maintenance. This will provide for approximately an additional 122 miles of street maintenance upon the completion of the FY 2018 Street Maintenance Program.

Transportation & Capital Improvements (TCI) will use \$87 million of the allocated budget to deliver the street projects using contract forces. TCI began construction of the FY 2018 Street Maintenance Program utilizing four (4) contracts that were awarded on October 19, 2017 and November 2, 2017. Additional contracts are scheduled to be awarded at a later date for the remaining street maintenance program. Table 1 summarizes the contracts awarded to date for this fiscal year.
