ALTERNATIVES:

Denial of the requested zoning change would result in the subject property retaining the present zoning district designation. Light Commercial or “C-1” districts accommodate neighborhood commercial uses which depend on a greater volume of vehicular traffic than an NC district. C-1 uses are considered appropriate buffers between residential uses and C-2 and C-3 districts and uses. Building size is limited to 5,000 square feet. Examples of permitted uses: arcade, boarding house, noncommercial athletic field, retail furniture sales, grocery store, nursery (retail - no growing of plants on site permitted), retail office equipment and supply, and retail rug or carpet sales. No outdoor storage or display of goods shall be permitted except for outdoor dining. Commercial or “C-2” districts accommodate community commercial uses, with unlimited building size, and building height limitation of 25 feet. Examples of permitted uses: liquor store, miniature golf and other indoor gaming facilities, small indoor movie theater, pet cemetery, auto & light truck oil, lube & tune-up, auto glass tinting, tire repair (sale and installation only), gas station, appliance sales & repair, charitable food & clothing banks and dry cleaning. No outdoor storage or display of goods shall be permitted except for outdoor dining.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is not located within a Regional Center or within a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, with Conditions.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is not located within a Neighborhood, Community, Perimeter, Sector, or Future Land Use Plan and, therefore, does not require a consistency in land use.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The amended request of “C-2 S” zoning will provide a suitable zoning adjacent to residential. The proposed use as a Reception Hall is consistent with the development pattern of the surrounding area. There is “C-3” zoning to the west and north of the subject property, but oversaturation of intense commercial zoning is not recommended.

3. Suitability as Presently Zoned:

The existing “C-1” and “C-2” base zoning districts are appropriate for the surrounding area. The amended request will maintain the “C-2” base zoning district which is suitable for the subject property.

4. Health, Safety and Welfare:

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare. There is existing single-family residential to the south of the property, the proposed “C-2” requires a Type B Buffer of

fifteen (15) feet.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The 0.9596 acre site is of sufficient size to accommodate the proposed development.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain specific locations.

If approved, Staff and Zoning Commission recommend: No outside amplifications systems, music or outdoor activities.
