Transportation

Thoroughfare: Martin Luther King Drive

Existing Character: Secondary Arterial

Proposed Changes: None known

Thoroughfare: Badger Street

Existing Character: Local

Proposed Changes: None known

Public Transit: VIA bus route 26 stop at Martin Luther King and Badger Street.

Traffic Impact: A Traffic Impact Analysis (TIA) report is not required. The traffic generated by the proposed development does not exceed the threshold requirements.

Parking Information:

The minimum requirement is 1 parking space per 500 sf GFA of sales and service building.

ISSUE:

None.

ALTERNATIVES:

Denial of the proposed zoning will result in the subject property retaining the current zoning district of “R-4”, which permits single-family dwellings (detached) with a minimum lot size of 4,000 square feet and a minimum lot width of 35 feet, foster family home, public and private schools. The “B” to “R-4” conversion also permits a duplex by right.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is not within a Regional Center or within a ½ of a mile of a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-1) recommend Denial.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Eastern Triangle Neighborhood Plan and is designated as High Density Mixed Use. The requested “C-2 CD” base zoning district is consistent with the future land use designation. However, staff is unable to establish any factor that demonstrates that Motor Vehicle Sales, a use permitted in “C-3”, belongs within this section of Martin Luther King Drive.

2. Adverse Impacts on Neighboring Lands:

The introduction of an intense commercial use in the middle of a single-family community runs contrary to the established planning principal that stresses the separation of incompatible uses.

3. Suitability as Presently Zoned:

The existing “R-4” base zoning district is consistent with the future land use plan as well as the development pattern. The “C-2 CD” is not appropriate for the property due to the subject property being within a residential neighborhood.

4. Health, Safety and Welfare:

The introduction of commercial and motor vehicle sales uses would establish too intense of a use in close proximity to single-family homes.

5. Public Policy:

Motor Vehicle Sales is a use permitted in “C-3”. The High Density Mixed Use future land use category supports zoning as intense as “C-2”. The requested use is too intense for the property. The proposed rezoning is not in agreement with the Eastern Triangle Neighborhood Plan.

6. Size of Tract:

The subject property measures 0.2388 acres which accommodates the existing development, but is small for a motor vehicle sales lot.

7. Other Factors:

The purpose of the Conditional Use is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may under the right set of circumstances and conditions be acceptable in certain specific

locations.

Should City Council approve the rezoning, staff recommends the following conditions:

1. At least a 6 foot privacy fence along property lines abutting Single-Family zoning and/or uses
2. No outdoor amplification speakers
3. Lighting shall be directed away from adjacent residential properties
4. Type “B” 15’ landscape buffer along shared property lines abutting Single-Family zoning/uses
