ALTERNATIVES:

Denial of the requested zoning change would result in the subject property retaining the present zoning district designations of “MF-33” Multi-Family District, “C-3” General Commercial District”, and “R-5” Residential Single-Family District.

“MF-33” permits multi-family dwellings, single-family dwellings (detached, attached or townhouse), two-family dwellings, three-family dwellings, four-family dwellings, row-house or zero-lot line dwellings, with a maximum density of 33 units per acre, assisted living homes, skilled nursing facilities, foster family homes, public and private schools.

“C-3” districts are intended to provide for more intensive commercial uses than those located within the NC, C-1 or C-2 zoning districts. C-3 uses are typically characterized as regional shopping centers, power centers, and/or assembly of similar uses into a single complex. There are no building size limitations, and building height is limited to 35 feet. Examples of permitted uses: bar/tavern & nightclub, amusement/theme parks, dance hall, indoor movie theater, auto repair, auto sales, auto glass sales (installation permitted), auto muffler (sales and installation only), hotel, bookbinder, dry cleaning or laundry plant, indoor flea market, home improvement center, body piercing/massage/tattoo parlor. No outdoor storage is permitted. Outdoor operations and display shall be permitted in areas which are screened as provided in 35-510 of the Unified Development Code.

“R-5” permits single-family dwellings (detached) with a minimum lot size of 5,000 square feet and a minimum lot width of 45 feet, foster family homes, public and private schools.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

A portion of the subject properties are located within the Brooks Regional Center. The subject properties are not located within a ½ of mile of a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (8-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is not located within an adopted Neighborhood, Community, Perimeter, or Sector Plan, therefore a finding of consistency is not required.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed mixed-use development will provide much needed growth to the area.

3. Suitability as Presently Zoned:

The current “MF-33”, “C-3”, and “R-5” are appropriate base zoning for the property and surrounding area. The area has a mix of commercial uses, multi-family, and single-family residences.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The proposed rezoning to “MXD” will allow development with a balanced mix of commercial and residential uses.

5. Public Policy:

The proposed rezoning does not appear to conflict with the goals, principles, and objectives of the SA Tomorrow Comprehensive Plan.

Relevant Goals and Policies of the SA Tomorrow Comprehensive Plan may include:

GCF P8: Continue to focus on the revitalization of neighborhoods adjacent to downtown and extend these efforts to regional centers, urban centers and transit corridors.

GCF P9: Allow higher-density and mixed uses in portions of, or adjacent to, single-family residential areas to encourage shopping, services and entertainment amenities in closer proximity to housing and where appropriate.

GCF P13: Evaluate commercial and industrial land use and zoning designations in the core of the city, regional centers, urban centers and primary transit corridors to determine areas that could be converted to residential or mixed-use.

GCF P14: Establish appropriate buffers and transitions (land use, form and/or landscaping) between residential neighborhoods and surrounding higher-density development.

6. Size of Tract:

The proposed rezoning includes 110.554 acres, which would support a large mixed-use development.

7. Other Factors:

Mixed Use Districts - The purpose of the Mixed Use District is to provide concentrated residential, retail, service, office and mixed uses. This district does not regulate land uses but, instead, permits any use to be established subject to an approved zoning site plan. Urban design standards are required in order to maintain a neighborhood commercial scale, to promote pedestrian activity, and to maintain the unique character of the center. Pedestrian circulation is required as are common parking areas.
