"GC-1"

The Hill Country Gateway Corridor District ("GC-1") provides site development standards for properties within 1,000 feet of Interstate 10 between UTSA Blvd and the northern City Limits. The standards primarily address building placement, landscaping, building materials and signage to promote a coordinated development scheme for the Corridor. A zoning review is performed by the Zoning Section of the Development Services Department.

"MLOD-1"

All surrounding properties carry the "MLOD-1" Military Lighting Overlay District, due to their proximity to Camp Bullis. The "MLOD-1" does not restrict permitted uses, but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

"MSAO-1"

All surrounding properties carry the "MSAO-1" Camp Bullis Military Sound Attenuation Overlay District, due to their proximity to Camp Bullis. The "MSAO-1" does not restrict permitted uses, but does enforce construction standards intended to lessen the impact of external noise from the nearby military installation. The

“MSAO-1” regulations apply to new construction of habitable structures.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the North Sector Plan and is currently designated as “Suburban Tier” in the future land use component of the plan. The requested “C-2” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed rezoning is requested in order to match the zoning with the current use of the property.

3. Suitability as Presently Zoned:

The current “C-2” Commercial District is an appropriate base zoning for the surrounding area. The area

includes a mix of commercial, multi-family and single-family base zoning districts.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the goals and objectives of the North Sector Plan. The “C-2 S” Commercial District with Specific Use Authorization for Party House, Reception Hall, and Meeting Facilities is requested in order to match the base zoning with the current use of the property. The property is located along Milsa Drive, a secondary arterial and within close proximity to Interstate Highway 10. The location of the property and the surrounding commercial uses makes the requested rezoning appropriate.

Relevant goals of the North Sector Plan:

- Goal ED-1 - Compatible economic development along major transportation routes and existing activity centers that do not interfere with the mission of Camp Bullis.
- ED-1.3 - Continue to maintain and revitalize the North Sector to retain and expand vibrant retail and commercial uses within the IH-10, IH-35, Loop 410 and Loop 1604 corridors and/or centers.

6. Size of Tract:

The properties are approximately 2.432 acres, which currently accommodates the existing commercial use.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but with may, under the right set of circumstances and conditions be acceptable in certain specific locations.
