Staff Analysis and Recommendation: Staff and Zoning Commission (11-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Eastern Triangle Community Plan, and is currently designated as “Neighborhood Commercial” in the future land use component of the plan. The requested “C-2” Commercial base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to change the future land use from “Neighborhood Commercial” to “Community Commercial”. Staff and Planning Commission recommend Approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The subject property is currently vacant. The applicant proposes to develop the lot for an office and construction contractor uses. The “C-2 CD” Commercial District with a Specific Use Authorization for a Construction Contractor Facility, allows conditions to be placed on the request to provide further buffering for the residences to the west. “C-2” is an ideal transition from Loop 410 going west into the local roads, and does not allow for intense commercial uses. In addition, it is a goal within the Eastern Triangle Community Plan to promote diverse business.

3. Suitability as Presently Zoned:

The current “R-20” base zoning district is appropriate for the subject property’s location. However, “C-2” is also appropriate with proper buffering.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property totals 1.16 acres in size, which reasonably accommodates the uses permitted in “C-2” Commercial District.

7. Other Factors:

The conditional use zoning procedure is designed to provide for a land use that is not permitted by the

established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
