Comprehensive Plan

Comprehensive Plan Component: Tobin Hill Neighborhood Plan

Plan Adoption Date: February 21, 2008

Plan Goals:

OBJECTIVE 2.1: HOUSING QUALITY

Encourage investment in the rehabilitation and maintenance of the existing housing stock in the neighborhood.

2.1.4 Diminish occurrences of commercial encroachment into residential areas.

OBJECTIVE 2.2: HOUSING DESIGN GUIDELINES AND STANDARDS

Create Design guidelines and when appropriate design standards to promote appropriate rehabilitation and new development in the neighborhood's residential areas.

2.2.1 Encourage and facilitate the development of quality, compatible infill housing where appropriate. Compatible housing will maintain the historical and architectural integrity of the neighborhood and help to better utilize vacant and/or unkempt properties.

RECOMMENDATION:

Staff Analysis & Recommendation: Staff and Planning Commission (8-0) recommend Denial, with an Alternate Recommendation of “Low Density Mixed Use.”

The applicant is requesting the Plan Amendment in order to redevelop the property consisting of five (5) vacant structures and permit a higher density than the plan currently allows. The proposed density is too high for the area, which consists of “Low Density Mixed Use” and “Low Density Residential” land use designation in the surrounding area. The Tobin Hill Neighborhood Plan designates the majority of the subject property as “Low Density Mixed Use” which permits the highest density of twenty-five (25) units per acre. This density is appropriate for the surrounding area. The proposed density is sixty-five (65) units per acre, which is too dense and not recommended. Staff recommends an Alternate Recommendation of “Low Density Mixed Use” in order to remain consistent with the Tobin Hill Neighborhood Plan with a maximum density of twenty-five (25) units per acre.

ALTERNATIVES:

1. Recommend Approval of the proposed amendment to the Tobin Hill Neighborhood Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
