**RECOMMENDATION:**

Staff Analysis & Recommendation: Staff recommends Approval.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the North Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.

The amendment will not adversely impact a portion of, or the entire Planning Area by;

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Camp Bullis Army Base.
- Significantly alter recreational amenities such as open space, parks, and trails.

The applicant is requesting the Plan Amendment in order to allow an extension to the Longhorn Quarry development to the south of the property. The request is consistent with the land use designation to the south of the property which is designated Public/Institutional.

**ALTERNATIVES:**

1. Recommend Denial of the proposed amendment to the San Antonio International Airport Vicinity Land Use Plan and North Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
