ALTERNATIVES:

Denial of the requested zoning change would result in the subject property retaining the present zoning district designation. The “C-3” base zoning district is intended to provide for more intensive commercial uses than those located within the NC, C-1 or C-2 zoning districts. C-3 uses are typically characterized as regional shopping centers, power centers, and/or assembly of similar uses into a single complex. There are no building size limitations, and building height is limited to 35 feet. Examples of permitted uses: bar/tavern & nightclub, amusement/theme parks, dance hall, indoor movie theater, auto repair, auto sales, auto glass sales (installation permitted), auto muffler (sales and installation only), hotel, bookbinder, dry cleaning or laundry plant, indoor flea market, home improvement center, body piercing/massage/tattoo parlor. No outdoor storage is permitted. Outdoor operations and display shall be permitted in areas which are screened as provided in 35-510 of the Unified Development Code. The “C-2NA” base zoning district is identical to C-2 districts except that the sale of alcoholic beverages is prohibited.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is located within the Rolling Oaks Regional Center and is located within a half-mile of the Austin Highway Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the North Sector Land Use Plan and is currently designated as “Suburban Tier” in the land use component of the plan. The requested “MF-33” base zoning district is not consistent with the adopted land use designation. The applicant requested a Plan Amendment to “General Urban Tier”. Staff and Planning Commission recommend Approval of the Plan Amendment.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “C-3” and “C-2NA” base zoning district is appropriate for the surrounding area. There are commercial uses to the south of the property and it fronts Loop 1604, so commercial is appropriate.

4. Health, Safety and Welfare:

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare. There are single-family residential uses to the west of the property and Loop 1604 is to the east of the property. The

proposed multi-family use will provide a zoning buffer between the highway and the single-family residential uses.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The 26.386 acre site is of sufficient size to accommodate the proposed development. The acreage and density of 33 units per acre will permit a maximum of 870 units, although some of the property may not be developable because of its location in the 100-Year Flood Plain.

7. Other Factors:

None.
