Comprehensive Plan

Comprehensive Plan Component: Highlands Community Plan

Plan Adoption Date: April 4, 2002

Plan Goals:

1.4.3 Preserve the small town feeling of the neighborhood commercial areas by encouraging neighborhood friendly businesses, such as hamburger eateries and ice cream shops, within walking distance of residences. Ensure pedestrian access to these areas and general neighborhood walkability by planting street trees and advocating for sidewalks and traffic calming devices.

Comprehensive Land Use Categories

Land Use Category: “Low-Density Residential”

Description of Land Use Category: Low-density residential uses include single-family houses on individual lots. All off-street parking and vehicle use areas adjacent to residential uses require buffer landscaping, and lighting and signage controls. Certain non-residential activities, such as schools, places of worship and parks, are appropriate within these areas and should be centrally located to provide easy accessibility.

Permitted Zoning Districts: RE, R-20, R-6, R-5, R-4

Land Use Category: “Neighborhood Commercial”

Description of Land Use Category:

Businesses such as dentist, insurance, professional, and non-profit offices; coffee shop, cafe, shoe repair, gift shop, hair salon, dry cleaners, deli, pet grooming, bakery, bed and breakfast; as well as residential uses, especially live/work units and residential over retail.

Neighborhood Commercial includes small offices and shop-front retail establishments that can be served by pedestrian access, generally less than 5000 square feet. No drive-through establishments are permissible. Residential uses can be in the same building with retail and office uses. This includes small apartment buildings and townhouses. Live/work units and residential units above retail are encouraged. Uses are in scale with the surrounding residential development. Community green areas with benches, trees and landscaping; small

plazas; and public gathering spaces are encouraged as part of the neighborhood commercial area. Buildings should have windows on the ground level. Parking areas should be located behind the buildings. Service entrances and/or yards are screened from residential areas and refuse enclosures are located at the rear of the site and screened. Buffer yards provide a landscaped separation between residential and commercial uses. All off street parking and vehicle use areas adjacent to residential uses require buffer landscaping and lighting and signage controls.

Permitted Zoning Districts: NC, C-1

Proximity to Regional Center/Premium Transit Corridor

The property is not located within a Regional Center. The property is located within a ½ of a mile of the Premium Transit Corridor.

RECOMMENDATION: Staff recommends Approval.

The proposed “Neighborhood Commercial” is along a minor arterial, Hackberry, and shares a boundary with a

freeway. Light Commercial uses would be appropriate in this area, as the Highlands Community Plan calls for neighborhood serving retail and small commercial businesses. This “Neighborhood Commercial” would be small in nature, only allowing “C-1” or “NC” zonings, and would be on the edge of the neighborhood on a corner lot.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Highlands Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
