RECOMMENDATION:

Staff Analysis & Recommendation: Staff and Planning Commission (8-0) recommend Approval.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the North Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.

The amendment will not adversely impact a portion of, or the entire Planning Area by;

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Camp Bullis.
- Significantly alter recreational amenities such as open space, parks, and trails.

The proposed “General Urban Tier” has immediate access to US Highway 281. Multifamily uses would be appropriate in this area, as there is multifamily nearby. The North Sector Plan calls for a “distinct urban edge”, which a denser development of multifamily would facilitate. The Plan also calls to integrate mixed use areas vertically and horizontally, which is enabled in the “General Urban Tier” land use category. Further, the site is surrounded by “General Urban Tier” land use and “MXD” Mixed Use District zoning, which could facilitate a mixed urban environment in the future.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the North Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
